

Chinook Approach Control User Safety Briefing

Presentation will provide pilots with information about Chinook approach control airspace to include expansion of R5701/R5706, new MTR at YKM and services provided by Chinook Approach Control/Tri-Cities Tower. Emphasis will be on pilot controller communications and open forum to discuss issues while operating in Chinook Airspace.

Directions: Take WA Highway 240 to Terminal Drive. (There is a stoplight and sign pointing to airport.) In 1/10th mile, Turn Right onto Airport Way. At the T intersection, turn left. Follow road to end. EAA Club House is on your left.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
